Good evening,

Attached for your review is a revised draft (clean and redline) of the preamble for OSHA's ETS. **By 6 PM Wednesday (5/12)**, please provide targeted line edits and identify showstopper concerns on the **CLEAN** document, sending those comment to **me, Jamie Dickinson, and Steph Tatham**. DOL would like to issue this ETS as soon as possible, hence the extremely expedited review. If this deadline is impossible for your agency to meet, please let me know immediately.

The redline document contains responses to comment bubbles provided on the prior draft. There's a new provision that exempts workplaces and well defined areas of workplaces, where all employees are fully vaccinated, from the requirements of the standards (or in healthcare, from some of the requirements).

We expect to receive the revised economic analysis within the next day or two – it will be sent out on a similarly expedited timeframe.
